

I am writing to ask that K-LOVE not be replaced by an LPFM in our area. It is heard on 90.3, 91.9, 91.5 in the Grand Junction, CO area and provides a great benefit to our community by providing quality music and program as well as public service announcements that keep us informed. If we were to lose the station it would be a great loss to our family and the community, and we ask that you not replace it. Thank you.
